EXECUTIVE SUMMARY

Computer Science graduate with practical experience in Artificial Intelligence, Full Stack Development, Frontend Development, and Quality Assurance. Currently serving as an AI Intern at Pakistan Ordnance Factories (POF) and previously worked as a Contract-Based Full Stack Developer. Qualified the Higher Education Commission (HEC) National IT Skills Competency Test with 61.4%, demonstrating strong technical competency, and successfully completed a NAVTTC-certified course in System Administration & IT Infrastructure. Proficient in Python, React.js, JavaScript, Node.js, and MySQL, with a passion for developing intelligent, scalable, and user-friendly software solutions. A quick learner with strong analytical and problem-solving skills, committed to continuous learning and delivering high-quality technology solutions.

SKILLS

- **Languages:** Python, Java, JavaScript, SQL
- **Frontend:** HTML, CSS, React.js, Tailwind CSS, Responsive Web Design
- **Backend:** Node.js, Express.js, REST APIs
- **Database:** MySQL
- **Full Stack:** Frontend-Backend Integration, Portfolio Development
- **Tools & Deployment:** Git, GitHub, VS Code, Postman, Vercel
- **Testing & QA:** Functional Testing, Test Case Design, Bug Reporting, Debugging
- **Other:** SDLC, Agile, Problem Solving, Teamwork

EDUCATION

2021 - 2026

Iqra University, Karachi

Bachelor of Science in Computer Science

Gained a strong foundation in computer science through programming, databases, and software engineering, with added skills in QA, testing, and team projects.

WORK EXPERIENCE

July 2026 - Present

PAKISTAN ORDNANCE
FACTORIES (POF)

AI Intern

Working under the guidance of experienced developers, learning real-world AI development, understanding production code, solving real-time problems, and completing assigned technical tasks.

May 2026 - June 2026

RECH INTERNATIONAL,
KARACHI

Full Stack Developer (Contract Based)

Migrated company data from Google Sheets to MySQL and integrated the existing frontend with the new database. Improved data management while ensuring seamless application functionality and performance.

March 2024 - Sep 2024

SNJ Global Services

Programmer Intern

Developed and debugged code, collaborated with teams, and gained hands-on programming experience.

PROJECTS

AI-Based Desktop Assistant (DeskBot)

- Developed a voice-controlled assistant to automate desktop tasks
- Implemented basic AI and speech recognition for user commands

MITM Attack Simulation (Network Security Project)

- Simulated a Man-in-the-Middle attack using USB-based approach
- Analyzed network vulnerabilities using Banana Pi

React-Based Web Portal (User Authentication System)

- Built a web application with login/register functionality
- Implemented input validation and error handling using React

LEADERSHIP

Team Lead – Academic & Social Project (9 Members)

- Led a team in organizing community-based activities
- Conducted visits to orphanages and old age homes
- Arranged awareness sessions and managed an Iftar event

CERTIFICATIONS

- NAVTTC (In Progress) – **System Administration & IT Infrastructure**
- National IT Skills Competency Test (HEC) – **61.4%**
- API testing & basic Overview of JMETTER – **10 Pearls University**
- Introduction to API Testing with Postman – **10 Pearls University**
