EXECUTIVE SUMMARY

Computer Science graduate with hands-on experience in Artificial Intelligence, Full-Stack Development, and System Administration. Currently appointed at Anet Cyber Solutions as a Full Stack Developer where specializing in building scalable, SaaS-based ERP systems, Previously had completed an AI-IT Internship at Pakistan Ordnance Factories (POF), contributing to cloud base system deployments using linux os ubuntu on digital ocean, CICD Pipelines, algorithmic systems, intent evaluation, and automated desktop pipelines. Successfully qualified the HEC National IT Skills Competency Test (61.4%) and earned an A+ Grade in the NAVTTC System Administration & IT Infrastructure certification from Iqra University. Proficient in Python, React.js, FastAPI, Next.js, Node.js, and Linux environment management. Adept at building scalable software solutions with strong analytical, problem-solving, and deployment skills.

SKILLS

- **Languages:** Python, Java, JavaScript, SQL
- **Frontend:** HTML, CSS, React.js, Tailwind CSS, Responsive Web Design
- **Backend:** Node.js, Express.js, REST APIs
- **Database:** MySQL, MogoDB, Postgre
- **Full Stack:** Frontend-Backend Integration, Portfolio Development,Fast APIs
- **Tools & Deployment:** GitHub, VS Code, Postman, Railway,Vercel, Digital ocean
- **Testing & QA:** Functional Testing, Test Case Design, Bug Reporting, Debugging
- **Other:** SDLC, Agile, Problem Solving, Teamwork

EDUCATION

2021 - 2026

Iqra University, Karachi

Bachelor of Science in Computer Science

Gained a strong foundation in computer science through programming, databases, and software engineering, with added skills in QA, testing, and team projects.

WORK EXPERIENCE

Sep 2026 - Present
ANet Cyber Solutions, KARACHI

Full Stack Developer
Developing and architectural design of scalable, SaaS-based ERP systems. Implementing full-stack features using modern web technologies and optimizing backend workflows.

July 2026 - Aug 2026
PAKISTAN ORDNANCE FACTORIES (POF)

AI Intern
Worked under the guidance of experienced developers, learn real-world AI development, production code, solved real-time problems, and completed assigned technical tasks.

May 2026 - June 2026
RECH INTERNATIONAL, KARACHI

Full Stack Developer (Contract Based)
Migrated company data from Google Sheets to MySQL and integrated the existing frontend with the new database. Improved data management while ensuring seamless application functionality and performance.

March 2024 - Sep 2024
SNJ Global Services

Programmer Intern
Developed and debugged code, collaborated with teams, and gained hands-on programming experience.

PROJECTS

AI-Based Desktop Assistant (DeskBot)

- Developed a voice-controlled assistant to automate desktop tasks
- Implemented basic AI and speech recognition for user commands

MITM Attack Simulation (Network Security Project)

- Simulated a Man-in-the-Middle attack using USB-based approach
- Analyzed network vulnerabilities using Banana Pi

React-Based Web Portal (User Authentication System)

- Built a web application with login/register functionality
- Implemented input validation and error handling using React

LEADERSHIP

Team Lead – Academic & Social Project (9 Members)

- Led a team in organizing community-based activities
- Conducted visits to orphanages and old age homes
- Arranged awareness sessions and managed an Iftar event

CERTIFICATIONS

- NAVTTC – **System Administration & IT Infrastructure**
- National IT Skills Competency Test **(HEC) – 61.4%**
- API testing & basic Overview of JMETER – **10 Pearls University**
- Introduction to API Testing with Postman – **10 Pearls University**
